

Cumbria RIGS (Regionally Important Geological Sites)

| Question | Agree | Response |
|---|---------------------|---|
| 1 – Geology | Yes | The BGS has carried out extensive research into movement of water within bedrock. |
| 2 – Safety, security, environment and planning | Yes | I disagree with the 'Rock Solid?' report (Document g) the risk of a build up of heat by radioactive decay is minimal. |
| 3 – Impacts | Yes | West Cumbria is the logical place to have a repository. The knowledge and skills required are available locally. |
| 4 – Community benefits | Not Sure/ Partly | I have no view on the community benefits package. |
| 5 – Design and engineering | Yes | The design is well thought out and is safe. |
| 6 – Inventory | Yes | No comment was made |
| 7 – Siting process | Not answered | The partnership must follow BGS guidelines. |
| 8 – Overall views on participation | | The community should be fully involved with the siting process. |
