

Sellafield Workers Campaign

Question	Response
Letter	<p>The Sellafield Workers Campaign hereby formally RESPONDS to the consultation from the MRWS partnership.</p> <p>Let's take a cool look at the precise question MRWS, acting on behalf of Cumbria, Copeland and Allerdale councils, is asking us all, including our Sellafield workforce.</p> <p>The MRWS asks: should our community TAKE PART in the SEARCH for a site for a repository, without ANY commitment to host that repository?</p> <p>We can't understand why any rational person would answer, "No, we will NOT take part in the search."</p> <p>As West Cumbrians, we've worked with nuclear materials day in and day out for more than 50 years. We understand the need for rigorous, sound science, and for top-level technology. We trust ourselves, and we trust our community.</p> <p>We believe that the MRWS Partnership should make a strong recommendation to the decision-making bodies that they participate in the next stage.</p> <p>We see it as essential that the trade unions continue to be involved in ANY FUTURE partnership taking the matter forward in a timely manner, should the decision to take part in the search be made the relevant bodies.</p> <p>We say: Yes, West Cumbria should take part in the search for "somewhere to put" a facility.</p>
